

Josh First

for Congress, PA 17th

Experienced & Qualified: Federal government service in Washington, DC, State government in Harrisburg, small business owner, non-profit leader, long time Republican campaign volunteer, not an incumbent!

My goals: Conservative, limited government, put the Constitution first, secure borders, balanced budgets, term limits, *real* health care reform, care for our Vets, fair trade — not free trade — bring back jobs, lower taxes, energy independence using clean coal and natural gas and a Manhattan Project for New Energy, food independence through strategic increased farmland protection, foreign policy independence by leaving the UN, bring back the troops.
